FOR THE VERY BEST

HOME

A CLEAR MIND FOR ALL THE SENSES

Rolf Benz LIV | Design Luca Nichetto

Nothing shows our home more appreciation than quality and craftsmanship. Both virtues are as much firmly anchored in Rolf Benz as the art of form that surrounds them. Design is not only shaped by time; it shapes time itself and outlasts it.

Today, the great variety of masterpieces created at this level is astonishing. Their clear design delights the eye of discerning beholders and fulfils the longing for a place that allows us to draw strength from peace and quiet.

STRONG ROOTS

STRONG CHARACTER

A decision to choose Rolf Benz is always a decision to support craftsmanship “Made in Germany”. The legendary Rolf Benz quality created at both of our plants in the northern Black Forest has been the hallmark of upscale institutions of hospitality throughout the region and is now highly sought after from Amsterdam to Shanghai.

The legendary Hotel Fritz Lauterbad draws guests from all over the world. The seating and lounge furniture in the lobby, bar, restaurant and suites are of course by Rolf Benz.

The Black Forest Rothaus brewery, world-famous for its “Tannenzäpfle” Pilsner and renowned for its gastronomic finesse throughout Stuttgart, relies on Rolf Benz to create traditional hospitality with modern upholstered furniture and coffee tables.

MADE IN GERMANY

WITH DEDICATION

Precision work, expertise and exacting checks are the essential ingredients in our efforts to achieve perfection "Made in Germany". The formula for success, however, is universal: only true dedication can produce something unique. At Rolf Benz, we like to describe the result with a nice German word that gets to the heart of the matter: WUNDERBAR.

As a long-established company from the Black Forest, Rolf Benz embodies the characteristically German virtues of order, conscientiousness and discipline. The combination of the Swabian work ethic and exacting demands in terms of quality may seem like a tall order, but it produces excellent results and is applied throughout the entire production chain:

- // fabric and leather storage
- // cutting using high-tech cutters
- // sewing
- // pre-upholstery
- // upholstery
- // 100 % final checks

The Rolf Benz upholstered furniture collection proudly bears the official quality mark "Furniture Made in Germany". Take a look behind the scenes of our domestic production facilities in the short film entitled "nothing but wunderbar".
