*- it's a tree story:*

”

*Our commitment to nature and to our values shapes everything we do.*

Dr Georg Emprechtinger,  
CEO and owner of TEAM 7

Looking at our world today, it is clearly time to acknowledge the fundamental importance of nature in our lives, and to take responsibility for our ecological footprint. It is time to prioritise lasting value – and to treat nature and our fellow humans with respect.

At TEAM 7, sustainability and environmental protection are at the heart of everything we do. Because we are a part of nature, and how we interact with it is a deciding factor for our future.

# OUT OF LOVE FOR NATURE

We love wood. And we love nature. We actively support climate protection with our decision to manufacture durable furniture from natural, renewable raw materials in an environmentally sustainable fashion. A crucial contribution which non-durable and synthetic products are unable to fulfil. The concept of "sustainability" has its roots in forestry and embodies a simple principle: for every tree that is felled, at least one new tree is planted. The valuable wood grows ever stronger in these sustainably managed forests – just like our love for this raw material. Because these forests, in which the trees for our furniture grow, play an important part as durable carbon storers. After all, the carbon from around one tonne of CO<sub>2</sub> is bound in one cubic metre wood. We then use this wood to make furniture, which in turn stores the bound carbon for many years. While this is happening, the next trees have already started growing and extracting CO<sub>2</sub> from our atmosphere.

## 930 t CO<sub>2</sub>

ARE EXTRACTED FROM THE ATMOSPHERE EVERY YEAR THANKS TO OUR ALREADY HUGE AND EVER EXPANDING 77-HECTAR FOREST

### SMALL INSECTS. GREAT EFFECT.

Our seven bee colonies taken care of by our TEAM 7 beekeepers at our Upper Austrian site in Pram symbolise our understanding for sustainable economies, as honeybees play a crucial role in the cycle of nature. They support the balance in our ecosystems and protect plant variety. Our bees contribute to the preservation of important natural environments that are the fundamentals for our existence. Ultimately this also benefits us, the people who inhabit them. They pollinate almost 80% of crops and wild plants. These also include trees which we need for the manufacturing of our furniture. So in this respect, our furniture production already starts with the bees!

# WE WERE ALREADY ECO BEFORE IT WAS COOL

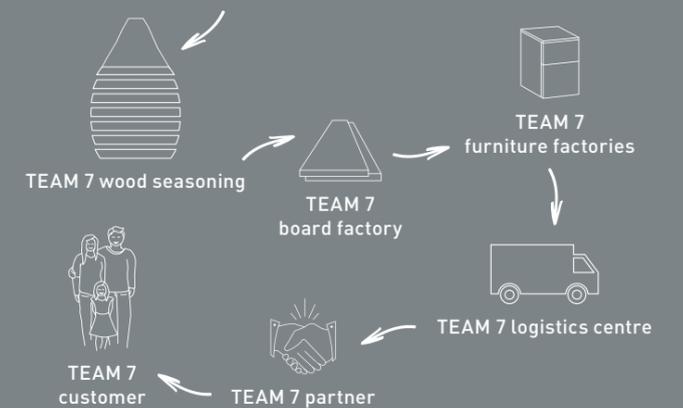

Back in the early 1980s, we decided to consistently follow "green" principles and convert our production completely to wood from sustainable forestry. This commitment to nature and our values shapes everything we do. We have set ourselves strict guidelines: only by living responsibly and sustainably can we preserve the fundamentals of life for future generations. We always consider both the human aspect and nature itself when producing our furniture. Careful use of resources has already been part of our everyday production methods for several decades. So we place great emphasis on ecological and sustainable production.

# FROM THE FOREST TO THE FINISHED FURNITURE: IT'S IN OUR HANDS

The entire production process for our furniture is carried out in our own workshops here in Austria: from natural seasoning and drying of the wood, to making the solid wood panels, right through to the finished product of our traditional artisan craftsmanship. This means we can guarantee high standards and environmentally friendly production. And the quality that we promise: made in Austria.

every order custom made  
in our own workshops in Austria

# LIVING WITH ALL THE SENSES

A longing for things that are genuine is inherent to human nature. The search for naturalness and authenticity is becoming more and more important, particularly in this increasingly digital age. We can only feel things fully with all our senses when they are real. This is just not possible in the virtual world. The open-pore, living wood we use to make our furniture has the unique ability to appeal to our senses. That's why we do everything we can to bring wood and its authentic characteristics into your home. Experience what we mean by "living with all the senses" and in tune with nature.

TEAM 7 100%

VIRTUAL

 <p><b>SIGHT</b></p> <p>Our carefully selected wood surfaces are sorted by hand and genuinely unique. Like the trees they are made from.</p>	 <p><b>HEARING</b></p> <p>Guitars, violins and pianos – they all depend on real wood for their sound.</p>	 <p><b>TOUCH</b></p> <p>Enjoy the warmth of our oiled, open-pore wooden surfaces – you can literally feel it.</p>	 <p><b>SMELL</b></p> <p>Close your eyes and enjoy the scent of real wood.</p>	 <p><b>TASTE</b></p> <p>Fine wine from a wood barrel, fresh bread from a wood-burning stove: pure pleasure.</p>
---	--	--	---	--

”

*The finest hardwood, assembled without formaldehyde, finished with natural oil – and that's it.*

Dr Georg Emprechtinger,  
CEO and owner of TEAM 7

## PURE SOLID WOOD

Our furniture made from pure solid wood supports a healthy living environment. That's no surprise – after all, the trees themselves come from healthy forests. Nurtured for decades in sustainable forestry, we process the wood with the greatest of care – and from the very outset. The choice of wood type is decisive for the later quality of our furniture. Genuine, open-pore wood brings comfort and warmth into your home. It breathes, absorbs humidity, and releases it again when the air is dry. This creates a noticeably more pleasant atmosphere in the room. Wood also has a natural anti-static and anti-bacterial effect.

To ensure we preserve these qualities, we process this superb natural material in its purest form. This is why the TEAM 7 promise applies to the manufacturing of all our wood furniture: pure solid hardwood from sustainable forestry, assembled without formaldehyde, finished with natural oil – and that's it! This is how we make sure the wood remains free of harmful substances and retains its wonderful properties.

## ULTRAMODERN THREE-LAYER TECHNOLOGY

Even the high-quality, three-layer solid wood panels are made to order for our furniture in our board factory. Three layers of the finest hardwood are glued together transversely. This technology preserves the naturalness and the original strength of the wood. At the same time it provides our boards with a tremendous structural stability. This opens up new possibilities for unique designs and functionality.

# TRULY UNIQUE

## *echt.zeit*

The **echt.zeit** table has an impressive table top crafted from solid slabs of untreated wood. The brushed table top truly brings the natural features of the wood to the fore. Every table is totally unique.

## NATURALLY BEAUTIFUL

Mighty oaks, over 100 years old, provide the wood for our **echt.zeit** table. These are grown for the most part in our own TEAM 7 forest and the Vienna Woods. But only certain tree trunks can be used for the "fillet pieces" needed to create one of our **echt.zeit** tables. The knowledge and experience of the traditional craftsman therefore play a decisive role in the choice of wood. The thick trunks ranging from one to two metres in size are sawed into slabs with great care and attention. These are then dried naturally and gently. Like good wine, our wood is given up to two years to mature, to develop the qualities we value, before our carpenters create an **echt.zeit** table from it.

Dr Georg Emprechtinger,  
CEO and owner of TEAM 7

”

*It's time to go back to the roots. Here's to real encounters,  
real conversation and really good times – together!*

Sebastian Desch, designer

### *echt.zeit*

The “leaf” from the TEAM 7 logo locks the two parts of the table top firmly together, and is yet another example of our perfectionist detailing. The neat steel panel supports made of burnished steel are modestly set back and their structural design ensures maximum stability. The trivet, which is reminiscent of a plus sign, can be easily repositioned along the length of the centre joint groove without slipping sideways.

fig.: *echt.zeit* table, wood type rustic brushed oak, burnished black steel panels | *lui plus* chair, blue leather, Maple 722 fabric, matt black aluminium swivel base

fig. right: *lui plus* chair, wood type walnut, sepia leather

# SOLID WOOD WITH NO COMPROMISES

## *taso*

The shape of the **taso** table is a refined combination of clear lines and soft curves that make the solid wood a pleasure to touch. With its recessed solid wooden legs in an A-shape, the **taso** table is ideal for combining with long or corner benches. The integrated table inserts and their extension profiles are made entirely from solid wood so that the high-quality look is accentuated, even when pulled out.

*taso | flor*

The **flor** chair and bench are perfectly coordinated with the **taso** table. Inspired by the organic shape and soft appearance of a flower blossom, **flor** provides maximum seating comfort with its generously upholstered seat.

fig. left: **taso** extendable table, 200 × 100 + 100 cm, wood type walnut | **flor** chair, wood type walnut, blue leather, Ripley 35 fabric | **flor** bench, 214 cm, wood type walnut, blue leather | **cbus pure** highboard 9, wood type walnut, matt bronze glass, smoked glass

fig. below right: **flor** chair, wood type oak, Ripley 16 fabric

fig. below left: **flor** bench, wood type oak, Ripley 10 fabric

*Ripley fabric collection – made 100% from recycled materials*

The new fabric Ripley is made entirely of recycled material which comes from old recycled clothes. That conserves valuable resources and extends the life cycle of these materials. Ripley is available for the **flor** chair and bench, the chair families **lui** and **aye**, as well as for the **mylon** chair and **yps** bench.

# PRECISION DOWN TO THE LAST DETAIL

## *tak*

Highest elegance, maximum comfort and perfect craftsmanship – the combination of the **tak** table and **lui** family of chairs.

**tak's** slender frame gives no hint of the hidden pull-out section, and allows maximum legroom when seated.

Find out more about  
the **tak** table!  
[qr.team7-home.com/  
tak-table-video](http://qr.team7-home.com/tak-table-video)

## *tak*

A focus on the essentials determines the form and function of the **tak** table. **tak's** strong but incredibly delicate table top is made possible by our ultramodern three-layer technology. It only takes three simple steps to extend the length of the **tak** by 50 or 100 cm with its innovative extension technology.

figs. above and left: **tak** extendable table, 200 × 100 + 100 cm, wood type oak white oil, frame with stainless steel finish | **f1** cantilever chair, medium grey leather, frame with stainless steel finish

fig. below: **tak** extendable table, 225 × 100 + 100 cm, wood type walnut, matt bronze frame | **lui** chair, wood type walnut, blue leather

## *tak*

The cool elegance of metal or the warmth of genuine solid wood: the choice is yours with **tak**. Nothing need be sacrificed when it comes to appearance.

fig. right: **tak** extendable table, 200 × 100 + 100 cm, wood type oak white oil | **mylon** wooden chair, wood type oak white oil

fig. below: **tak** extendable table, 200 × 100 cm + 100 cm, wood type oak white oil | **lui** chair, wood type oak white oil, umbra natural leather

”  
*Delicate, coloured glass outlines the fronts like a picture frame,  
 highlighting the solid wood and adding an unmistakably contemporary look.*

Sebastian Desch, designer

**cube pure** highboard 9, wood type walnut, matt bronze glass, smoked glass

### *cube pure*

A three-sided casing made of 4-mm thick coloured glass displays the high-quality wood and coloured glass fronts in **cube pure**, and its fine glass edge gives the occasional furniture a delicate appearance. Particularly striking is the contrast between the homogenous glass surfaces and the vibrant solid wood in our fascinating venetian oak front option. This unique, hand-picked wood pattern comes from venetian oak trunks and is characterised by traces of the tides and of mussels.

fig. above from L to R: **cube pure** highboard, wood type venetian oak, glossy taupe glass | glossy curcuma glass | wood type walnut, glossy pebble glass

fig. right: **cube pure** sideboard 65, wood type oak, matt bronze glass, clear glass, skid stand with stainless steel finish

fig. below: **cube pure** sideboard 31, wood type venetian oak, matt bronze glass

#### What is your favourite colour?

Choose the exact colour you desire for all glass surfaces. The entire colour range of the NCS system is available to you (surcharge applies).

### *cubus pure*

The **cubus pure** occasional furniture combines a sophisticated appearance with practical storage space. An illuminated display case places the decorative accessories nicely in the limelight, while items of everyday living find their place behind closed fronts. A recessed plinth, the skid stand or the delicate metal frame base accentuate the virtually floating appearance of the furniture.

fig. above: **cubus pure** sideboard 71, wood type oak white oil, matt medium grey glass, skid stand with stainless steel finish

fig. right: **cubus pure** sideboard 27, wood type walnut with beech interior, matt pebble glass

fig. right-hand page: **cubus pure** highboard 11, wood type oak, matt black and matt pearl glass, snow white metal frame base  
**grand lui** chair, Ripley 01 fabric, matt black aluminium swivel base

# THE CLASSICS OF TOMORROW

## *magnum*

Its timelessly beautiful design makes our **magnum** table a true classic that inspires with its innovative technology and lovingly detailed craftsmanship, such as the high-quality mortice-and-tenon joints.

### magnum

In addition to selecting various wood types, you can also choose to have table inserts in glass in numerous colours or in high quality ceramic for the **magnum** table. Thanks to its patented **2soft** swivel mechanism, it can be extended by 50 cm, 2 × 50 cm or 100 cm in one soft, cushioned movement.

#### ceramic colours

fig. above: **magnum** extendable table, 200 × 100 + 100 cm, wood type oak, iron moss ceramic | **magnum** cantilever chair, taupe Stricktex, base with stainless steel finish  
**filigno** sideboard 3, wood type oak, iron moss ceramic, skid stand with stainless steel finish

fig. below: **magnum** extendable table, 200 × 100 + 2 × 50 cm, wood type oak, matt bronze glass

### magnum

Our **magnum** cantilever chair has a pleasing minimalist design; its gentle rocking movement enables both a dynamic and comfortable seating position. It is available in numerous colours, with or without armrests. And if you wish to pick out a new colour after a few years, the Stricktex seat shell can be replaced with another.

fig. left: **magnum** cantilever chair with armrest, wood type walnut, dark grey melange Stricktex, matt black frame

fig. below: **magnum** cantilever chair, black Stricktex, glossy chrome-plated steel base

[qr.team7-home.com/magnum-table-video](http://qr.team7-home.com/magnum-table-video)

## REAL CRAFTSMANSHIP

We've been making furniture since 1959. You can feel this experience. Every piece of TEAM 7 furniture is unique: hand built in our workshop by experienced joiners using traditional Austrian artisan craftsmanship. It guarantees the high quality of our products. Not only do we create furniture, we also create lasting value.

### *aye | s1*

Our **aye** chair is a perfect blend of beautiful form and seating comfort. The flexible backrest, elastic seat and optional, ergonomic armrests make **aye** a very comfortable seat. With its numerous leather and fabric colours and one or two-colour combinations, it is an exceptionally versatile piece. Whether in pure solid wood, or in an upholstered version, the **s1** chair has a timeless design in the tradition of hand-crafted production.

fig. above left: **aye** chair with armrest, wood type walnut, tartufo natural leather

fig. right: **s1** chair with wooden backrest, wood type oak | **s1** chair with seat and backrest in leather, wood type oak, dark brown leather L3

### tema

Our patented **nonstop** extension technology enables the **tema** table inserts to automatically swing into and out of place again with a single action. Thanks to its ingenious design, this mechanism is cleverly hidden away inside the table top. The **tema** table can be planned as a non-extendable table, up to 300 cm long, or as an extendable table up to 350 cm. You can choose between solid wooden panels or sophisticated A-legs for the base.

fig. left: **tema** extendable table with wooden panels, 225 x 100 + 100 cm, wood type oak white oil | **grand lui** chair, medium grey leather, matt black wire frame, swivel base with stainless steel finish

figs. above and below: **tema** extendable table with A-leg, 225 x 100 + 100 cm, wood type oak white oil | **lui** and **grand lui** chair, white leather, wire frame with stainless steel finish

the **tema** table!  
[qr.team7-home.com/  
tema-table-video](http://qr.team7-home.com/tema-table-video)

### *filigno*

The **filigno** glass cabinet provides an elegant combination of open and closed storage space. The optional lighting for the glass cabinet can be dimmed to create the right mood in both your living and dining room. It enchants with real solid wood in unrivalled delicate material thickness – just like the eponymous **filigno** sideboard.

figs. left and right: **filigno** glass cabinet 2, wood type walnut, smoked glass, matt black metal frame base  
**lui plus** chair, wood type walnut, sepia leather

fig. below: **filigno** sideboard 13, wood type walnut

Find out more about the **filigno** glass cabinet!  
[qr.team7-home.com/filigno-glass-cabinet-1](http://qr.team7-home.com/filigno-glass-cabinet-1)

### *filigno*

Genuine solid wood, shaped with precise and delicate craftsmanship, accentuates the modern design style of **filigno** occasional furniture. Highboards can be fitted with functional interiors for glasses and small devices, including a dual power socket. Both interiors are fitted with LED lighting.

fig.: **filigno** highboard 2 with interior partition for glasses with mirror, wood type oak white oil, ceramic basalt black

### *filigno*

The top board and side walls made of only 12 mm-thick solid wood panels in three-layer technology add a delicate touch to our **filigno** occasional furniture. A recessed plinth, the filigree metal frame base, elegant wooden panels or slides as base variants emphasise the characteristically light appearance of the **filigno**. Fronts are available in solid wood, coloured glass and ceramic.

fig. above: **filigno** sideboard 3, wood type oak white oil, matt white glass, skid stand with stainless steel finish

fig. left: **filigno** sideboard 16, wood type oak

fig. below: **filigno** sideboard 17, wood type oak, basalt black ceramic, matt black metal frame base

[qr.team7-home.com/filigno-sideboard-video](http://qr.team7-home.com/filigno-sideboard-video)

# IMPRESSIVE MATERIAL STRENGTHS

## *nox*

With its smooth extension and the soft-close **2soft** swivel mechanism, the **nox** table can grow by 60 or 120 cm in next to no time. So you can create space for up to four more people.

Find out more about  
the **nox** table!  
[qr.team7-home.com/  
nox-table-video](http://qr.team7-home.com/nox-table-video)

### **nox**

Elegant metal slides and the gently rounded edges of the solid table top distinguish the **nox** table. The shape, height, and depth of our **nox** bench backrest accommodate different seating positions for superior seating comfort.

figs. above and left: **nox** extendable table, 225 x 100 + 120 cm, wood type wild walnut, matt black frame | **nox** bench with backrest, 225 cm, wood type walnut, anthracite leather, matt black frame | **magnum** cantilever chair, anthracite leather, matt black base | **nox** sideboard 11, wood type walnut, palladium glass

fig. below: **nox** bench with and without backrest, 225 cm, wood type walnut, anthracite leather, matt black frame

### **nox | magnum**

A perfect match for the **nox** table and bench is the **magnum** cantilever chair in leather. For the **nox** sideboards, you can choose between sliding doors made of solid wood or glass, or you could opt for drawers instead. The glass cabinets are offered in two different heights and widths.

fig. above: **nox** extendable table, 225 x 100 + 120 cm, wood type walnut, frame with stainless steel finish | **nox** bench with backrest, 225 cm, wood type walnut, blue leather, frame with stainless steel finish | **magnum** cantilever chair, blue leather, frame with stainless steel finish

fig. left: **nox** glass cabinet 3, wood type walnut, palladium glass

fig. below: **magnum** cantilever chair, taupe leather, base in glossy chrome-plated steel

# LIGHT-FOOTED GIANT

## yps

The base at the centre of the **yps** table offers generous legroom and enough space for comfortable access when combined with a bench or corner bench. The Y-shaped, flared legs help stabilise the table and give it a modern appearance.

”

*yps is both solid and dynamic in a light-footed way;  
as if time were standing still for a moment.*

Jacob Strobel, designer

*yps*

Our **yps** extendable table catches the eye with the same design principle as the **yps** non-extendable table: angular, puristic, made completely of genuine, strong, solid wood. On one or both sides, **yps** can be extended by 60 cm each, or equipped with a combination of table insert and a cutlery drawer.

fig.: **yps** extendable table, 200 × 100 + 60 cm, wood type oak  
**lui** chair, wood type oak, black-brown leather

*yps*

The **yps** bench makes the Y design element stand out with its refined stitching in the seating and its premium micro-pocket springs provide superior and lasting seating comfort. The bench is available as a corner seat or a straight bench. You can choose between flared legs and slab-ends from solid wood for the base.

fig. above: **yps** table, 180 × 110 cm, wood type walnut  
**yps** corner bench, 249 cm, wood type walnut, sludge brown leather

fig. right: **yps** corner bench, 249 cm, wood type walnut, sludge brown leather

fig. below: **yps** bench with wooden panels, 264 cm, wood type walnut, Maple 862 fabric

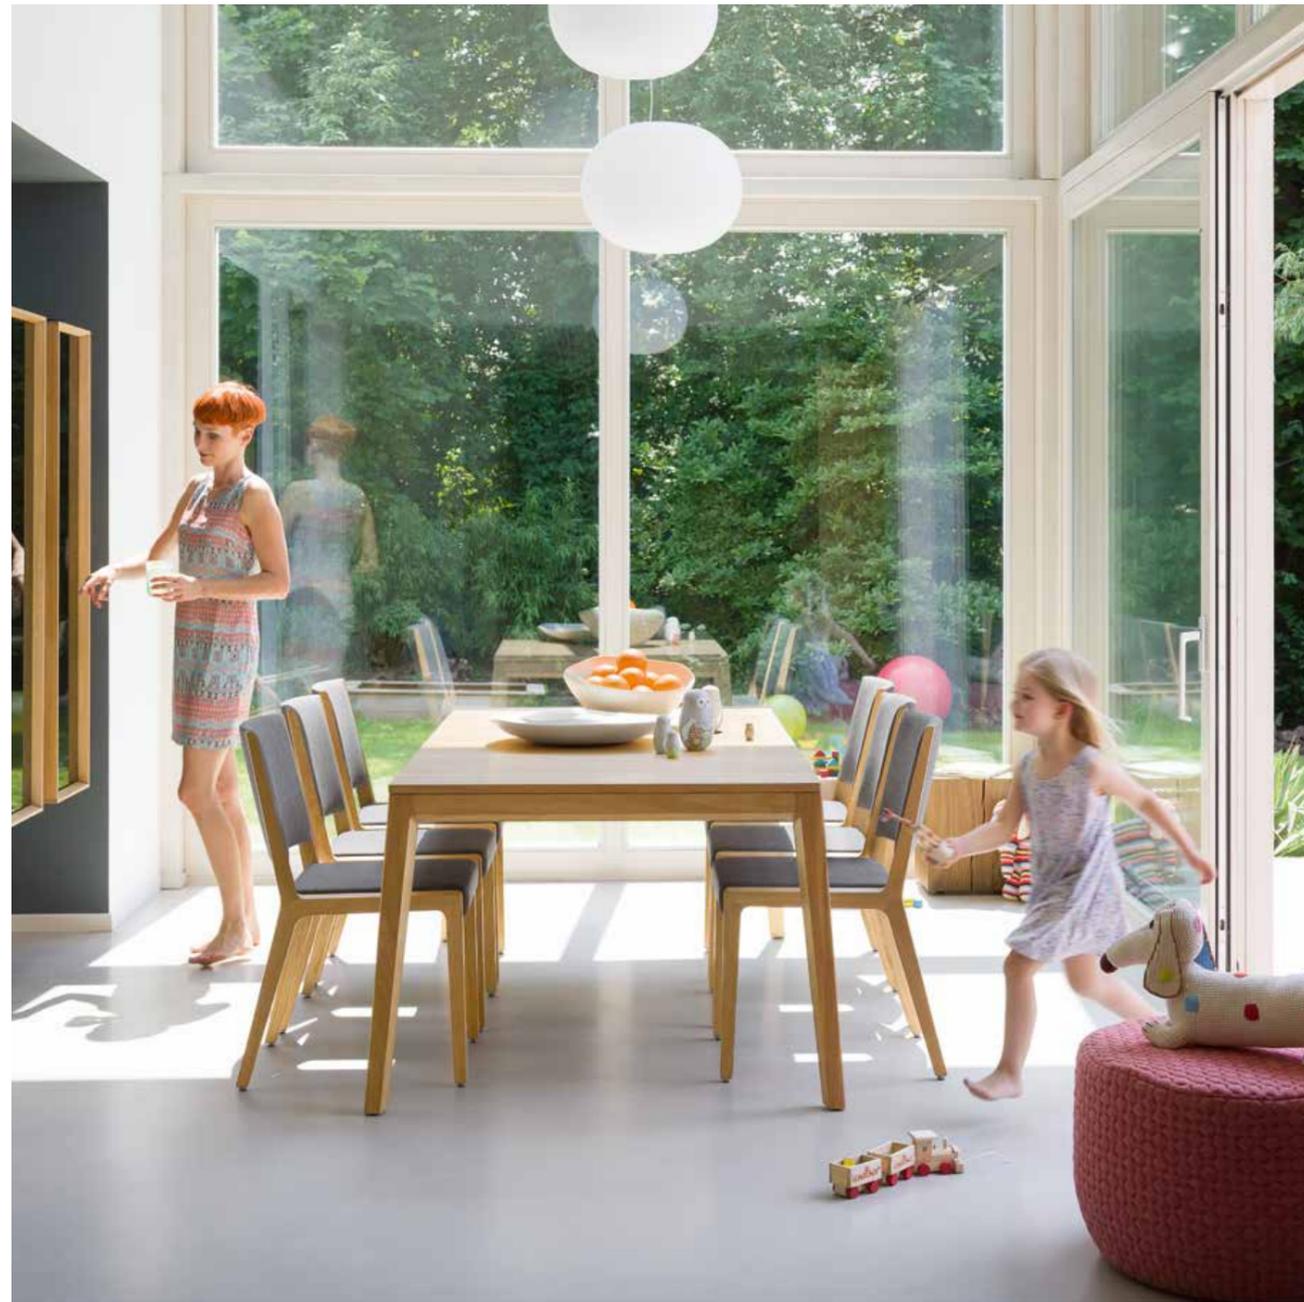

# IMPRESSES IN EVERY SIZE

*mylon*

The **mylon** table is pleasing in small formats thanks to its well-proportioned compactness, while the flared legs in larger designs emphasise the impressive span of the piece.

## *mylon*

With our innovative extension technology, you can expand the **mylon** table by 50, 2 x 50 or 100 cm to transform it from a cosy family table into a stately banquet board.

fig. above: **mylon** extendable table, 200 x 100 + 100 cm, wood type oak | **eviva** chair, wood type oak, Canvas 134 fabric

fig. right: **mylon** extendable table, 175 x 90 + 100 cm, wood type beech heartwood | **mylon** wooden chair, wood type beech heartwood

## *mylon*

The flowing, uninterrupted lines of the **mylon** chair make for harmonious pairing with a wide range of tables. The elegantly curved backrest and ergonomically shaped seat – whether in pure solid wood or upholstered in fabric or leather – provide superior seating comfort which goes far beyond that of an ordinary wooden chair.

fig. above from L to R: **mylon** wooden chair, wood type walnut | wood type oak white oil, black leather | wood type oak white oil | wood type beech heartwood | wood type walnut, brown natural leather | wood type beech heartwood, Canvas 764 fabric | wood type cherry

fig. right: **mylon** wooden chair, wood type oak white oil

Learn more about the three-layer technology on page 11.

## PAINTING WITH WOOD

We produce every solid wood panel ourselves for our furniture in our board factory. At the same time we take meticulous care to produce with the highest quality. In order to fit every wood pattern harmoniously, we assemble the wood for the top layers of the three-layer solid wood panels for fronts and table tops of our customised furniture by hand: handmade works of art. We call this "painting with wood".

### *cubus*

The 25-mm strong top board and side pieces crafted from solid wood are characteristic for the diverse **cubus** occasional furniture line. The **cubus** shelf system also provides a wide range of planning options for both stylish and functional furnishings in the dining room.

fig. above right: **cubus** shelving highboard 1, wood type oak, matt medium grey glass

fig. above left: **cubus** display case 20, wood type oak, smoked glass

fig. right: **cubus** sideboard 21, wood type oak

# ARTISTIC CURVES

## *girado*

The elegant star base is characteristic of the **girado** table. The centre leg offers maximum legroom which can even be expanded with our comfortable **2soft** extension: depending on the table shape, by 50, 60 or 100 cm.

”

*The change between cool glass and warm solid wood  
lend the cubus glass cabinet a special expressiveness.*

Sebastian Desch, designer

*cubus* glass cabinet 10, wood type walnut, glossy taupe glass, clear glass

### *girado* | *cubus*

The sculpture-like backrest makes the **girado** chair both unique and extremely comfortable. Another eye-catcher in the dining room is the **cubus** display case, which gives a view of the elegant solid wood inside.

fig.: **girado** extendable table, 120 x 120 + 60 cm, wood type oak, glossy white glass, matt aluminium base | **girado** chair, wood type oak, white leather, matt aluminium base

# SUBTLE AND ELEGANT

## *filigno*

**filigno** makes it possible to create elegant, flowing transitions between kitchen, dining and living areas. The design focuses on the passionate and consistent depiction of solid wood with an unrivalled slimness.

## *filigno*

The delicate casing typical of **filigno** is made possible by ultramodern three-layer technology: the solid wood panels are only 12 mm thick.

figs. above and left: **filigno** wall unit, wood type oak white oil

the **filigno** living range!  
[qr.team7-home.com/  
living-szg-m](http://qr.team7-home.com/living-szg-m)

*filigno*

The variety of the **filigno** range impresses with nearly unlimited planning options and opens up all kinds of possibilities for wall units to suit your individual needs. Boards and panels can be positioned freely. **filigno** home entertainment furniture provides you with plenty of space for your audiovisual electronics.

# ELEGANT REDUCTION

## *cube pure*

Precise surfaces and fine edges are the cubic and clear stylistic elements of **cube pure**. The modular element system can be planned individually, accommodating numerous heights, widths and depths.

### *cubus pure*

The central design idea of the **cubus pure** living range consists of delicate coloured glass that envelops the fronts like a picture frame. With equal brilliance, the **stern** coffee table combines traditional craftsmanship and innovative design. Open design elements with adjustable, dimmable LED lighting make for exciting displays.

figs. above and left: **cubus pure** wall unit, wood type walnut, matt anthracite glass, black acoustic fabric | **stern** coffee table, wood type walnut, clear glass

fig. above right: **cubus pure** wall unit 25, wood type walnut, matt steel glass, black acoustic fabric

fig. below right: **cubus pure** wall unit 31, wood type oak, matt white glass, snow white metal frame base

### *cubus pure | graphic*

Pure elegance and pure individuality: this is what **cubus pure** promises when combined with the **graphic** design elements. The clever arrangement of the shelves and sides with **graphic** creates a graphically exciting appearance and opens up a wide range of application possibilities. Whether vertical or horizontal, standing upright on the floor, attached to the wall or as a room divider – **graphic** is impressive as a solo piece or as part of a wall unit.

# INFINITE VARIETY

## *cabus*

The combination possibilities of the element and shelf system make the **cabus** living line a true playground for your own creativity – allowing individualised design options that are perfectly adapted to you and your home.

### *cubus*

The variety of the **cubus** living range is almost infinite and offers aesthetic and intelligent solutions for everybody. Of course it also features convenient details such as soft-close sliding doors and drawers with flexible media dividers.

fig.: **cubus** wall unit 99a, wood type walnut, matt taupe glass and matt bronze glass

### *cubus*

Our **cubus** wall units have many faces. With all-glass doors and the LED lighting behind them, the **cubus** shelf system offers room for displays, while coloured glass sliding doors in various formats create an interesting interplay between open and closed elements. And beneath it, **cubus** home entertainment lets you enjoy a perfect movie night.

# STORAGE SPACE WONDER

## *cubus*

Each **cubus** shelf is a custom fabrication that lets you plan everything individually: wood type, glass colour, dimensions, functions, format and front style. In addition to combinations with hinged doors, sliding doors, drawers, or flaps, it is also possible to use the **cubus** shelf system to create a classic library.

## cubus

The **cubus** shelf system can be planned as desired in terms of width and height. Shelves and sides made of solid wood give the **cubus** shelves enormous stability and high load-bearing capacity. Practical two-tier bookshelves ensure a better overview and soft-close sliding shelves provide additional storage space.

figs. above and left: **cubus** shelf, wood type walnut, matt taupe glass, clear glass

fig. right: **cubus** shelf 98, wood type walnut, matt bronze, matt dark brown and matt taupe glass

”

*This charming material mix of warm solid wood and cool coloured glass, as well as the exciting interplay between open and closed fronts, give the cubus shelf system an amazingly diverse appearance.*

Sebastian Desch, designer

## PERSONALISED PLANNING

Our consultants plan according to your ideas and spatial possibilities. Every single piece of furniture is designed exactly according to your wishes and to perfectly match your individual needs. You can choose from a number of models and different wood types as well as various materials and colours.

### What is your favourite colour?

Choose the exact colour you desire for all glass surfaces. The entire colour range of the NCS system is available to you (surcharge applies).

”

*The numerous combination possibilities make the cubus shelf system a creative workshop for individualists.*

Sebastian Desch, designer

## EVERY ORDER IS CUSTOM MADE

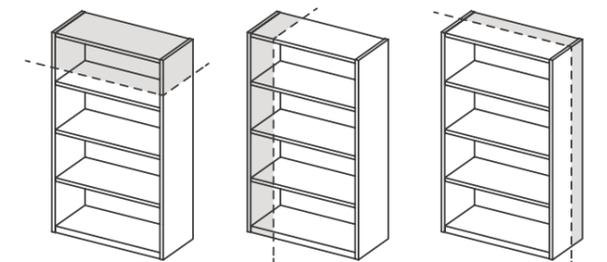

Our furniture is not produced for a warehouse, it is created in response to customer requests. Manufacturing exclusively to order allows us maximum flexibility to fulfil your dream living space. Numerous furniture ranges for all living areas and the option to flexibly adjust heights, widths and depths\* means we can plan the layout individually for you – and even create bespoke designs.

\*for shelf and furniture elements, except home entertainment and furniture elements with functional fittings

Find out more about the **filigno** coffee table!  
[qr.team7-home.com/filigno-coffee-table](https://qr.team7-home.com/filigno-coffee-table)

### *lift* | *lux*

The height-adjustable **lift** coffee table adapts flexibly to your needs. The optional electric adjustment mechanism offers maximum handling convenience. **lux** impresses with its clever design and hidden drawer.

fig. above left: **lift** coffee table with drawer, electrically adjustable to any height from 39.7 cm to 79.7 cm, wood type walnut, matt black frame

fig. above right: **lift** coffee table with drawer, adjustable to any height from 39.5 cm to 75.5 cm, wood type walnut, matt white glass, glossy chrome frame

fig. left: **lux** coffee table with drawer, wood type walnut

### *filigno*

Thanks to its sophisticated technology, the table top of the **filigno** coffee table rises to a height of 64 cm – perfect for having a snack while watching TV or for working from home.

metal colours:

fig. above: **filigno** coffee table with step function, wood type walnut, basalt black ceramic, matt black metal frame base

fig. right: **filigno** coffee table with step function, wood type walnut, matt black metal frame base | **filigno** coffee table, wood type oak, matt black metal frame base

*stern | juwel*

Artful sculpture and coffee table in one. The coffee tables **stern** and **juwel** unite traditional craftsmanship and innovative design in a unique way. The result is works of art created from pure solid wood.

fig. right: **juwel** coffee table, wood type walnut, clear glass

fig. below: **stern** coffee table, wood type walnut, clear glass

*ur*

The **ur** coffee table is made entirely from solid wood. The free form of the table top with its edges varying in both angle and depth accentuates the solid wood whilst emphasising its pure physicality. Even the table legs are fixed by a metal-free traditional sliding dovetail joint that allows easy assembling and disassembling. Whether free form or with a round table top – the different versions, each in two heights, are also suitable as a combined ensemble.

fig. above: **ur** coffee table round, wood type wild oak

**ur** coffee table free form, wood type wild oak

Find out more about the **ur** coffee table!  
[qr.team7-home.com/ur-coffee-table](https://qr.team7-home.com/ur-coffee-table)

*sidekick* | **c3**

The innovative shape of the **sidekick** table playfully combines both design and convenience. Depending on the 'set-up', it can be used either as a practical coffee table or as a sophisticated side table. The function can be easily changed by simply turning it over. The wooden cross in the centre connects the top and base plate of the **c3** coffee table almost invisibly. This ingenious design gives it a graceful aesthetic despite its solid materials and provides generous storage surfaces.

fig. above: **c3** coffee table, wood type walnut

figs. left and below: **sidekick** side table, wood type walnut

*loup* | *clip* | *hi!* | **solid wood block**

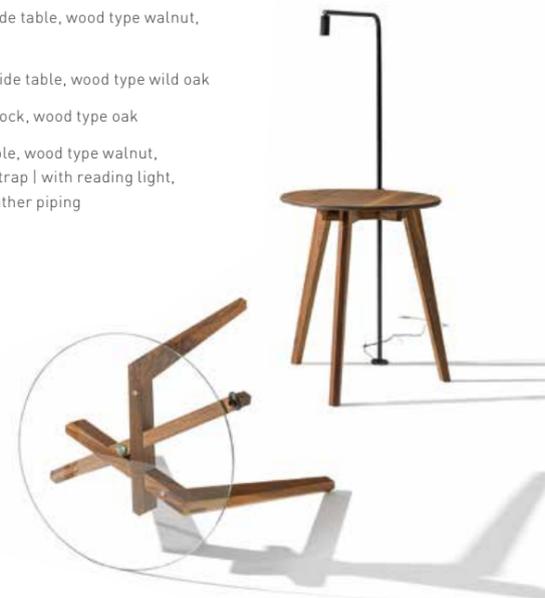

Mobile and versatile side tables can be used in many living areas and add that special something to your home. Our solid wood blocks offer a welcome option for sitting or storage.

fig. above left: **loup** side table, wood type walnut, matt pebble glass

# SOUND SYSTEMS MADE OF WOOD

## *home entertainment*

The programme of your choice: innovative **cubus**, **cubus pure** and **filigno** home entertainment furniture provides technically sophisticated solutions for all areas of entertainment electronics – whether as a part of a wall unit or as standalone furniture.

*home entertainment*

What does our home entertainment furniture have in common with guitars, violins or pianos? An element made of solid wood – this lets the acoustics develop in an optimal manner and also meets all of the technical requirements of modern home entertainment equipment. Different wood types, acoustic fabric in various colours and a broad range of glass colours offer you multiple design options. A specially developed subwoofer element ensures that the subwoofer remains unnoticed but is heard loud and clear.

fig. above: **filigno** home entertainment, 131.2 x 38.2 x 48.3 cm (w x h x d), wood type oak, metallic blue acoustic fabric

fig. centre right: **cubus pure** home entertainment, 200 x 53.4 x 57.8 cm (w x h x d), wood type wild oak, matt black glass, black acoustic fabric

fig. below right: **cubus pure** home entertainment, room divider version, 181.2 x 45.4 x 57.4 cm (w x h x d), wood type oak, matt white glass, light grey acoustic fabric | subwoofer cube, 51.2 x 45.4 x 57.4 cm (w x h x d), wood type oak, matt white glass, light grey acoustic fabric

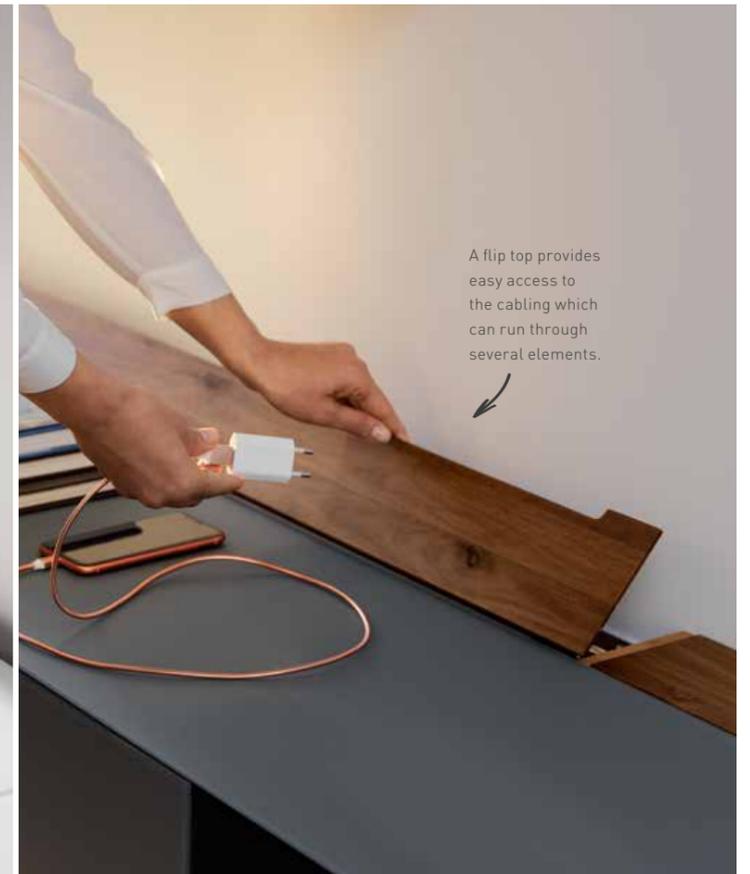

integrated subwoofer

Find out more about **cubus pure** home entertainment! [qr.team7-home.com/home-entertainment-furniture-video](http://qr.team7-home.com/home-entertainment-furniture-video)

Cable flaps in coloured glass and combination topboards as a link between home entertainment and element system ensure even more individual planning flexibility.

A flip top provides easy access to the cabling which can run through several elements.

*home entertainment*

This ingenious furniture provides plenty of space for your home entertainment systems, convenient cabling accessible through the flap, as well as enough space for the ideal ventilation of your equipment. A choice of cable flaps in coloured glass as an alternative to the version in solid wood offer more design options. Combined with the various metal colours of the TV pillar as well as the metal frame base, these colours lend this furniture both a minimalist and particularly elegant appearance.

metal colours:

The TV column rotates almost 360°, height-adjustable, with an integrated cable duct.

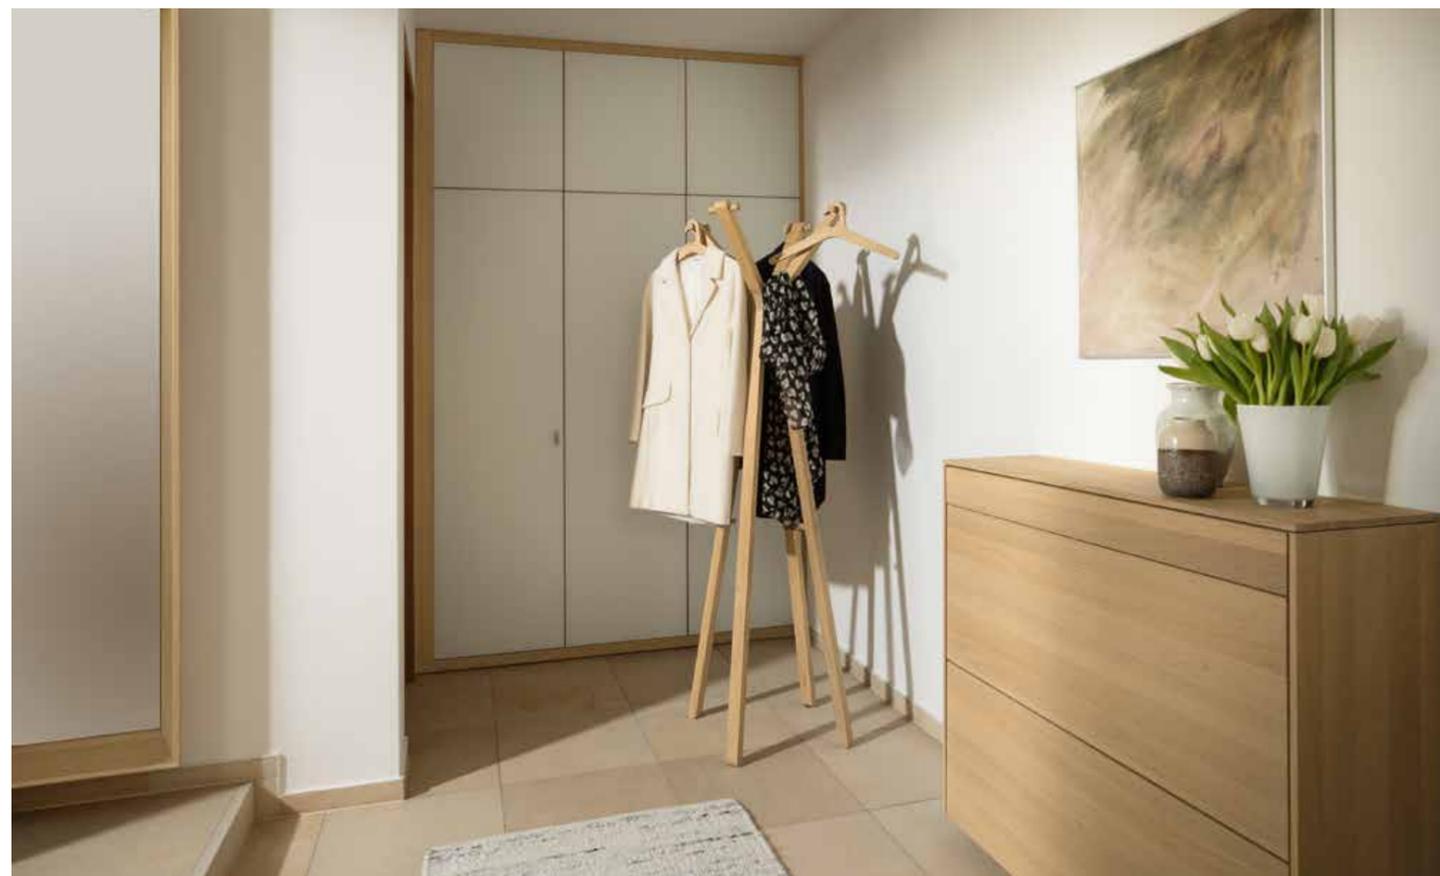

The intelligent ventilation system can be supplemented with optional integrated electric fans.

# GREETED BY NATURE

## *filigno*

**filigno's** elegant 12 mm wood casing looks impressive in the entry hall too. **haiku** is the perfect companion, reflecting the delicate lines of **filigno** in its beautifully bevelled front edge. **hood** completes this informal entry hall combination, providing a place to hang clothing and much more.

*haiku | filigno | cubus pure*

Together with **haiku** and **hood**, the **filigno** dresser and the **cubus pure** flap-door shoe cabinet offer a large variety of exciting combination possibilities for individual arrangements in the entry area.

fig. above: **cubus** entry hall, wood type oak white oil, matt white glass | **hood** clothes rack, wood type oak white oil | **filigno** dresser, wood type oak white oil

figs. left and below: **cubus pure** entry hall 13: **haiku** wardrobe panel and mirror panel, wood type walnut | **cubus pure** flap-door shoe cabinet, wood type walnut with beech interior, matt white glass

“  
*hood is an attitude expressed in furniture: powerful, genuine through and through, natural and casual.*

Sebastian Desch, designer

*hood | hood+*

Its sleek design makes the **hood** clothes rack a versatile addition to the entry hall. Its expansive arms offer plenty of room for your clothing and there are convenient hanging points. Big brother **hood+** is even more generous – available in either 110 or 130 cm widths.

fig.: **hood** clothes rack and clothes hangers, wood type walnut  
**hood+** clothes rack and clothes hangers, wood type oak

*clothes hanger*

Made from a single piece of solid wood, our clothes hanger makes a highly sophisticated impression.

*shoehorn*

The pleasant texture of real wood can be felt with the shoehorn as well. Its favourite place: hanging from the **hi!** side table

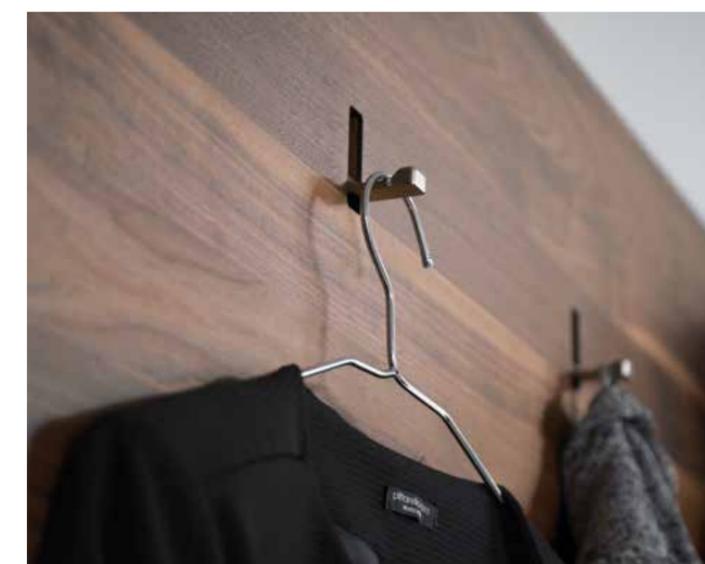

*cubus pure*

Our **cubus pure** entry halls, with their fine glass edges and recessed plinth, give your entrance an airy feel. A contrast to this is the G3 board whose impressive material thickness makes it a wonderful seat. The wooden panel charms with its refined details: it offers practical hanging options for clothes thanks to integrated flip hooks and serves as a magnetic wall at the same time.

fig.: **cubus pure** entry hall 11, wood type walnut, matt black glass

*cubus pure*

Entry hall solutions that integrate completely into the room architecture offer not just a clear, minimalistic design but also enough storage space for clothes and shoes. Solid oak blocks serve as convenient stools or storage surfaces.

figs. above and left:  **cubus pure** entry hall 8, wood type oak, matt dark brown glass, dark brown leather

fig. right:  **cubus pure** entry hall 10, wood type oak, matt anthracite glass | solid wood block, wood type smoked oak

### *cubus*

A wide range of design options, including an extensive modular element and wardrobe system, allow you to create a hallway design that is perfectly suited to your requirements. Whatever your space situation and storage needs, our **cubus** entry hall programme has the right solution for you.

fig.: **cubus** entry hall, wood type beech heartwood, matt taupe glass

***cubus***

The flexibility of **cubus** also makes compact furniture plans possible that meet all of the basic requirements for an entry hall: space for clothes and shoes, a mirror, and a shelf. The artful magnetic wall made of solid wood offers a place for messages.

fig. above left: **cubus** entry hall 25, wood type beech heartwood

# WE ARE DEDICATED TO CREATING FURNITURE THAT'S JUST AS UNIQUE AS WOOD ITSELF.

– *it's a tree story:*

## simple day-to-day care

Our solid wood furniture is not only pleasant to the touch – it also holds up well with daily use. Day-to-day cleaning just needs a dry or slightly damp cotton cloth.

## product care and repair

The oiled, open-pore finish of our wooden surfaces means small dents and scratches are easy to treat. Even the traces of many years of use can be removed: sand down, apply oil, and you're done.

Watch our care video!  
[qr.team7-home.com/maintenance-video](https://qr.team7-home.com/maintenance-video)

## room climate

Solid wood furniture feels most comfortable at a constant humidity level of between 40% and 60%, and a room temperature of between 18° and 23° Celsius – just like us humans. You can find more information about the material-typical properties of our solid wood furniture in our Service Certificate.

Find out more about our Service Certificate!  
[qr.team7-home.com/service-certificate](https://qr.team7-home.com/service-certificate)

## ecolabel

The Austrian Ecolabel verifies that the wood we use comes from sustainable forestry and contributes to a healthy living environment due to its special surface treatment. It is also a mark of high-quality products that excel in durability, serviceability, as well as safety and comfort in daily use.

## ISO, EMAS

The EMAS certificate is proof of our sustainable production, efficient use of resources and that we comply with the applicable environmental laws. As an ISO-certified company, we stand for the implementation of internationally applicable standards in the areas of environment, quality, and safety.

## test lab

This means that, even in the development phase, we test the function, ergonomics, stability, and safety of our products comprehensively in our own laboratory, over thousands of cycles. TEAM 7 offers only tailor-made furniture – with perfected technology and function.

## conservation of resources

Purchasing with the right attitude. Contrary to the current trends toward global sourcing, we have always relied on regional partners and suppliers. This ensures short transport routes and avoids unnecessary emissions of harmful substances. Plus, our regional, carefully selected supplier network means more flexibility for our customers. This not only protects nature, it also preserves our independence.

# CONSERVATION OF RESOURCES

## NATURE SUPPLIES US WITH IDEAS AND ENERGY.

We purchase 100% green electricity for our production facilities. What is more, our photovoltaic power plant generates 390,000 kWh per year. That covers the annual electricity consumption of over 85 average Austrian households.

## CONSUME LESS, CREATE MORE.

Thanks to targeted energy-saving projects, such as an intelligent light control, new ventilation or efficient heat recovery systems, we have reduced our annual total energy consumption from 14.8 million kWh to 12.8 million kWh since 2012. We have simultaneously been able to improve manufacturing efficiency.

THE PURCHASE OF GREEN ELECTRICITY  
COMBINED WITH OUR PHOTOVOLTAIC SYSTEM  
SPARE THE ATMOSPHERE ANNUALLY

2,000 t CO<sub>2</sub>

1,300 t CO<sub>2</sub>

IS WHAT WE SPARE THE ATMOSPHERE BY  
PRODUCING HEAT THROUGH BIOMASS INSTEAD OF  
BURNING FOSSIL FUEL-BASED NATURAL GAS

## DURABLE FURNITURE FROM NATURAL MATERIALS.

Treated wood surfaces can easily be repaired and covers reupholstered. This transforms our furniture into loyal companions for many years to come. All our furniture is manufactured in such a way that it can be returned to the natural cycle at any time.

OVER THE NEXT GENERATIONS,  
THE SOLID WOOD FURNITURE WE PRODUCE  
EVERY YEAR WILL BIND

6,000 t CO<sub>2</sub>

## CO<sub>2</sub>-NEUTRAL ENERGY GENERATION.

The scraps of wood accumulated from production are used in the company's own furnaces for heat production, making us completely energy self-sufficient. Since wood is biomass, no more CO<sub>2</sub> is released during combustion than that which the trees have withdrawn from the atmosphere during their growth. This enables a CO<sub>2</sub>-neutral energy generation.

## SUSTAINABLE PACKAGES.

When packaging our furniture, we avoid plastics and instead use cardboard from recycled waste paper, custom-fitted to the piece we are packing. This preserves resources, saves on padding and provides the best possible protection in transit.

## EMAS ENVIRONMENTAL STATEMENT

Everything on our journey to becoming a green factory as well as our efforts to consistently align all activities of TEAM 7 with the principles of sustainable management can be read about in our EMAS-approved environmental statement.

Read our environmental statement!
